APPLICANT'S INTERVIEW SUMMARY OF INTERVIEW HELD OCTOBER 17, 2007

In response to the October 17, 2007 telephonic interview between Examiner Tejal Gami and Applicant's Representative Jack P. Friedman, in which the Advisory Action mailed 10/15/2007 was discussed, the Examiner agreed to enter the amendment to claim 25 in Applicants' filed response on 08/16/2007 to the final office action mailed 08/10/2007.

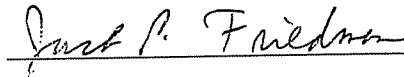

Although the Examiner's Interview Summary filed 10/26/2007 neglects to mention the Examiner's agreement to enter said amendment to claim 25, a subsequent Advisory Action mailed 11/08/2007 states that the claim amendment will be entered for purposes of appeal.

The Examiner's Interview Summary filed 10/26/2007 incorrectly states that "Applicant's Representative requested consideration primarily on the basis that the prior art of record does not teach "compensation actions to transform the system resources into a mutually consistent state that differs from an initially consistent state". Applicant's filed response on 08/16/2007 to the final office action mailed 08/10/2007 includes numerous other persuasive arguments as to why

claim 25 is not anticipated by Freund. At the interview, Applicant mentioned the feature of "compensation actions to transform the system resources into a mutually consistent state that differs from an initially consistent state" as an example of why claim 25 is not anticipated by Freund.

In the Examiner's Interview Summary filed 10/26/2007, the content of "Examiner Responds: ... Section 2.7 of the Patent Cooperation Treaty PCT Preliminary Examination Report on record." was not discussed at the interview.
